Index of Subjects

'A'-currents, in the muscle cells of *Schistosoma mansoni*, 471
Active-site directed affinity labels, use of in the characterization of cysteine proteinases from *Fasciola hepatica*, 487
Adherence, of macrophages to *Schistosoma mansoni*, *in vitro*, 463
Aerobic resistance, of *Trichomonas vaginalis* to metronidazole *in vitro*, 31
African buffalo, *Trypanosoma vivax* in, 277
Amphids, of *Meloidogyne* spp., a glycoprotein specific to, 405
Ancylostoma spp., feeding behaviour of the 3rd-stage larvae of, 163
Antibody response, to *Onchocerca volvulus*, effects of vector control on,
Antibody responses, to *Trichinella spiralis*, variation of in mice, 371
Antigens 5 and B, use of monoclonal antibodies against for detection of hydatid circulating antigens, 75
Artemisinin, effects of on experimental cutaneous leishmaniasis, 7
Ascariasis, evaluation of community treatment of, 211
Ascaris suum, immunocytochemical demonstration of neuropeptides in the CNS of, 305
Aspiculuris tetraptera, genetic determinism in high susceptibility to in mice, 387

Bancroftian filariasis, diagnostic agent for, 413
Boran cattle, *Trypanosoma vivax* in, 277
Bothriocephalus claviceps, infection dynamics of in *Cyclops vicinus*, 503
Bulinus nasutus, purification of an agglutinin from the haemolymph of, 127

Carbohydrate antigens, of *Schistosoma mansoni* larvae, effects of u.v. irradiation on, 117
Carbohydrate metabolism, in the eggs of *Hymenolepis diminuta*, 201
  temporal changes in, in the oncospheres of *Hymenolepis diminuta*, 317
Cercariae, ultraviolet-attenuated, use of in immunization of pigs against *Schistosoma mansoni* infection, 459
Characterization, of a *Neospora* sp. isolated from bovine foetuses, 239
Chemotherapy, reinfection with hookworm after in Papua New Guinea, 379
Chemotherapy programmes, evaluation of, 211
Chloride balance, effects of ivermectin on in *Ascaris suum*, 421
Chloroquine resistance, in *Plasmodium falciparum*, 107
Colombian isolates, of *Trypanosoma* (*Duttonella*) *vivax*, 21
Colonization time hypothesis, a test of, 91
Community structure, of helminths in the digestive tract of *Sciaena umbra* L. 1758, 519
Confocal microscopy, use of to demonstrate neuropeptides in the CNS of *Ascaris suum*, 305
Congenitally athymic BALB/c mice, explusion of *Echinostoma trivolvis* from, 297
Cryptosporidium parvum, excystation of *in vitro*, 13
Cyclops vicinus, infection dynamics of *Bothriocephalus claviceps* in, 503
Cysteine proteinases, characterization of from *Fasciola hepatica*, 487

Decoy effect, in snail communities, 265
Detection, of density dependence of helminths in natural infections, 527
Development, of *Leptorhynchoides thecatus* in largemouth bass, 495
Diagnostic agent, for bancroftian filariasis, 413
Diclidophora merlangi, neuropeptides of, 171
Digestive tract, of *Sciaena umbra*, helminth communities in, 519
Diphyllobothrium dendriticum, substance P-like peptide in, 83
DNA extraction, from fox faeces, use of in the detection of *Echinococcus multilocularis*, 193

East Coast fever, transmission dynamics of in eastern Africa, 251
Echinococcus granulosus, detection of circulating antigens to using monoclonal antibodies, 75
  infections of in vervet monkeys and baboons, 511
Echinococcus multilocularis, detection of DNA of in fox faeces, 193
Echinostoma trivolvis, expulsion of from BALB/c mice, 297
Epidemiological significance, of the population genetics of *Trypanosoma brucei* in Central Africa, 137
Epidemiology, of *Sphaerospora* spp. in sea bass, 39
  of trypanosome infections of *Glossina pallidipes* in the Zambezi Valley, 479
Evaluation, of chemotherapy programmes, 211
Excystation, of *Cryptosporidium parvum*, *in vitro*, 13
Exo-erythrocytic stages, of *Plasmodium berghei*, inhibition of by a novel hydroxynaphthoquinone, 1
Expulsion, of *Nippostrongylus brasiliensis* from rats, 185

Fasciola hepatica, characterization of cysteine proteinases from, 487
  5-hydroxytryptamine receptor in body wall muscle of, 67
Fecundity, detection of in helminths in natural infections, 527
Feeding behaviour, of hookworm larvae, 163
Field trials, in the control of *Opisthorchis viverrini* in northeast Thailand, 283

Genetic determinism, in high susceptibility to intestinal pinworm in mice, 387
Genotypes, of *Giardia intestinalis*, differentiation of by PCR, 347
Genotypes of *Trypanosoma congolense*, characterization of a new one from Kenya, 151
Giardia intestinalis genotypes, differentiation of by PCR, 347
Giardia lamblia, effects of the trophozoites of on trypsin, chymotrypsin and amylase *in vitro*, 233
Globicephala melas, intestinal helminth communities in, 327
Glossina pallidipes, effect of infection of cattle by *Trypanosoma congolense* on the behaviour of, 357
  epidemiology of trypanosome infections of in the Zambezi Valley, 479
Glucose metabolism, in the eggs of *Hymenolepis diminuta*, 201
  temporal changes in, in the oncospheres of *Hymenolepis diminuta*, 317
Glycoprotein, specific to the amphids of *Meloidogyne* spp., 405

Haemagglutinin activity, of a haemolymph protein from *Bulinus nasutus*, 127

Haemolymph, of *Bulinus nasutus*, purification of an agglutinin from, 127
Haemonchus contortus, characterization of proteinases in extracts of, 395
vaccination of merino lambs against, 63
Helminth communities, in *Globicephala melas*, 327
in *Sciaena umbra*, 519
Helminth parasites, of *Salmo trutta*, 101
Helminth richness, a test of the colonization time hypothesis, 91
Helminths, detection of density dependence of in natural infections, 527
Hookworm larvae, feeding behaviour of, 163
Hookworm, reinfection with after chemotherapy in Papua New Guinea, 379
Hybrid zone model, of susceptibility to pinworm in mice, 387
Hydatid circulating antigens, detection of using monoclonal antibodies, 75
Hydatid infections, in monkeys, 511
Hydroxynaphthoquinone 566C80, inhibition of *Plasmodium berghei* liver stages by, 1
5-Hydroxytryptamine receptor, of *Fasciola hepatica* body wall muscle, 67
Hymenolepis diminuta, carbohydrate metabolism in the eggs of, 201
temporal changes in the glucose and carbohydrate metabolism of, 317

IgG-binding protein, of *Taenia crassiceps* is similar to schistosome paramyosin, 289
Immunity, to *Trichinella spiralis* in mice, variation in, 371
Immunization, of pigs against *Schistosoma japonicum*, 459
Immunocytochemical demonstration, of neuropeptides in the CNS of *Ascaris suum*, 305
Immunogenicity, of a hybrid *Plasmodium falciparum* malaria antigen, 451
Infection dynamics, of *Bothriocephalus claviceps* in *Cyclops vicinus*, 503
Intestinal helminth communities, in the long-finned whale, 327
Ion-sensitive microelectrode study, on the effects of ivermectin on chloride balance in *Ascaris suum*, 421
Irradiation, effects of on the surface carbohydrates of *Schistosoma mansoni* larvae, 117
Isoenzymes, use of in the characterization of Colombian isolates of *Trypanosoma* (*Duttonella*) *vivax*, 21
Ivermectin, effects of on chloride balance in *Ascaris suum*, 421

Leishmania major, effects of qinghaosu (artemisinin) on, 7
Leismanicidal activity, of qinghaosu (artemisinin), 7
Leptorhynchoides thecatus, in largemouth bass, 495
Long-finned pilot whale, intestinal helminth communities in, 327

Macrophages, loss of adherence of, to *Schistosoma mansoni in vitro*, 463
Malabsorption, effect of *Giardia lamblia* trophozoites on, 233
Malarial oocyst infections, heterogeneity in, 441
Mast cell recruitment, by *Porocephalus crotali*, 47
Mathematical models, use of in the analysis of the transmission dynamics of *Theileria parva*, 251
Meloidogyne spp., a glycoprotein specific to the amphids of, 405
Membrane proteins, use of to vaccinate against haemonchosis, 63
Merino lambs, vaccination of against haemonchosis, 63
Mesocestoides corti, stereological estimation of the total number of neurons in, 177
Metabolism, of carbohydrates in the oncospheres of *Hymenolepis diminuta*, 317
Metronidazole, resistance of *Trichomonas vaginalis* to, *in vitro*, 31
Micropterus salmoides, establishment and survival of *Leptorhynchoides thecatus* in, 495
Microtubular organization, immunofluorescent visualization of in *Plasmodium falciparum*, 223
Miracidia, decoy effect in the infection of hosts by in snail communities, 265
Models, use of for detection of density dependence of helminths, 527
Molinema dessetae, purification of phosphoenolpyruvate carboxylase from, 55
Moniezia expansa, the nervous system of, 429
Monoclonal antibodies, use of for detection of hydatid circulating antigens, 75
Morbidity due to ascariasis, evaluation of community treatment of, 211
MSA 1 gene, of *Plasmodium vivax*, polymorphism in, 335
Mucosal mast cells, recruitment of by *Porocephalus crotali*, 47
Multidrug resistance genes, transcripts of in *Plasmodium falciparum*, 107

N'Dama cattle, *Trypanosoma vivax* in, 277
Necator americanus, feeding behaviour of the 3rd-stage larvae of, 163
Neospora sp., *in vitro* isolation and characterization of from bovine foetuses, 239
Nervous system, of *Diclidophora merlangi*, regulatory proteins in, 171
of *Diphyllobothrium dendriticum*, evidence for the presence of substance P-like peptide, 83
of *Moniezia expansa*, 429
Neuron count, in *Mesocestoides corti*, 177
Neuropeptides, immunocytochemical demonstration of in the CNS of *Ascaris suum*, 305
of *Diclidophora merlangi*, 171
of *Moniezia expansa*, 429
Nippostrongylus brasiliensis, role of reactive oxygen species in the expulsion of from rats, 185

Onchocerca volvulus, effects of vector control on the antibody response to, 363

Oocysts, of *Cryptosporidium parvum*, excystation of *in vitro*, 13
Opisthorchis viverrini, control of in northeast Thailand, 283

Pancreatic enzymes, effect of *Giardia lamblia* trophozoites on, 233
Papua New Guinea, reinfection with hookworm after chemotherapy, 379
Paramyosin, similarity of to an IgG-binding protein from *Taenia crassiceps*, 289
Parasite community richness, a test of the colonization time hypothesis, 91
PCR, on DNA of *Echinococcus multilocularis* in fox faeces, 193
use of in differentiation of major *Giardia intestinalis* genotypes, 347
pfmdr transcripts, identification of in *Plasmodium falciparum*, 107
Phosphoenolpyruvate carboxylase, purification and properties of from *Molinema dessetae*, 55
Plasmodium berghei, inhibition of the liver stages of by hydroxynaphthoquinone, 1
Plasmodium falciparum, immunogenicity of a hybrid malaria antigen of, 451
microtubular organization in, 223
multidrug resistance in, 107
Plasmodium vivax, polymorphism in the MSA 1 gene of, 335
Plasmodium spp., heterogeneity in infection patterns in the mosquito vector, 441
Polymorphism, in the MSA 1 gene of *Plasmodium vivax*, 335
Population dynamics, of malaria within the mosquito, 441
of *Sphaerospora dicentrarchi* and *S. testicularis* in sea bass, 39

Population genetics, of *Trypanosoma brucei* in Central Africa, 137
Porocephalus crotali, recruitment of mucosal mast cells by, 47
Post-translational modifications, of parasite tubulin, 223
Praziquantel, use of in the control of *Opisthorchis viverrini*, 283
Proteinases, characterization in extracts of *Haemonchus contortus*, 395
Purification, of phosphoenolpyruvate carboxylase from *Molinema dessetae*, 55

Qinghaosu, effects of on experimental cutaneous leishmaniasis, 7

Reactive oxygen species, role of in expulsion of *Nippostrongylus brasiliensis* from rats, 185
Receptor, for 5-hydroxytryptamine in *Fasciola hepatica* body wall muscle, 67
Recombinant fusion protein, of *Wuchereria bancrofti*, evaluation of as a diagnostic agent, 413
Regulatory peptides, in the nervous system of *Diclidophora merlangi*, 171
Rescue effect hypothesis, of trout parasites, 101

Salmo trutta, common and rare parasites of, 101
Schistosoma japonicum, immunization of pigs against, 459
Schistosoma mansoni, irradiated surface antigens of, 117
loss of adherence of macrophages to *in vitro*, 463
voltage-gated currents in the muscle cells of, 471
Sciaena umbra L. 1758, communities of helminths in, 519
Snail communities, decoy effects in, 265
Sphaerospora dicentrarchi, population dynamics of, 39
Sphaerospora testicularis, population dynamics of, 39
Stereological estimation, of total number of neurons in *Mesocestoides corti*, 177
Substance P-like peptide, in *Diphyllobothrium dendriticum*, 83
Surface carbohydrates of *Schistosoma mansoni* larvae, effects of u.v. irradiation on, 117
Susceptibility, to intestinal pinworm in mice, evidence of genetic determinism in, 387

Taenia crassiceps, an IgG-binding protein of is similar to schistosome paramyosin, 289
Taxonomic significance, of the population genetics of *Trypanosoma brucei* in Central Africa, 137
Theileria parva, preliminary analysis of the transmission dynamics of, 251
Transmission dynamics, of *Theileria parva* in eastern Africa, 251
Trichinella spiralis, variation in immunity in mice, 371
Trichomonas vaginalis, aerobic resistance of to metronidazole, *in vitro*, 31
Trophozoite surface antigen, of *Giardia intestinalis*, analysis of by PCR, 347
Trypanosoma brucei, population genetics of in Central Africa, 137
Trypanosoma congolense, effect of cattle infection by on the behaviour of *Glossina pallidipes*, 357
Trypanosoma (*Duttonella*) *vivax*, comparative studies of Colombian isolates of, 21
Trypanosoma (*Nannomonas*) *congolense*, molecular characterization of a new genotype from Kenya, 151
Trypanosoma vivax, in African buffalo, N'Dama and Boran cattle, 277
Trypanosoma spp., epidemiology of infections of in *Glossina pallidipes* in the Zambezi Valley, 479
Tsavo-type *T. congolense*, a new genotype, 151
Tubulin, post-translational modifications of in *Plasmodium falciparum*, 223

Ultrastructural studies, on a *Neospora* sp. isolated from bovine foetuses, 239

Vaccination, of merino lambs against haemonchosis, 63
Vector control, effects of on the antibody response to *Onchocerca volvulus*, 363
Vervet monkeys, hydatid infections in, 511
Voltage-gated currents, in *Schistosoma mansoni* muscle cells, 471

Worm expulsion, *Echinostoma trivolvis* from BALB/c mice, 297
Wuchereria bancrofti, application of a recombinant fusion protein of as a diagnostic agent, 413
